Summary

I lead engineering teams and build AI-agentic systems — frameworks people ship real products on, and the tooling that makes agentic coding productive.

Laravel and PHP first, Go for the systems that need it, and a growing toolkit for agent development.

Creator of TomatoPHP, Laravilt, ToGO and Orchestra MCP — used by developers and teams worldwide.

Experience

CPTO — One Studio

Apr 2026 — Present · Cairo, Egypt

Chief Product & Technology Officer — own technical and product strategy across the studio's portfolio, leading engineering, plant management and cross-team delivery.

Senior Engineering Manager — ID8 Media

Jan 2026 — Present · Cairo, Egypt (Remote)

Leading engineering teams and technical staff management, working across Node.js services and platform delivery.

Tech Lead — iStoria

Jan 2023 — Present · Cairo, Egypt

Leading technical development for a social platform with 5M+ users. Cut API response time from 6 seconds to 35ms, and lead the team and the full-stack architecture behind it.

Open Source Developer — TomatoPHP

Aug 2022 — Present · Cairo, Egypt (Remote)

Building and maintaining open-source PHP/Laravel packages and developer tooling.

Head of Engineering — Rize

Jan 2022 — Jan 2023 · Cairo, Egypt

Took the platform from a 10% build to a shipping MVP in one month, then rebuilt its UI and UX end to end in the next — leading the engineering team through both.

Tech Lead — Naqrat

Jan 2021 — Jan 2022 · Cairo, Egypt

Led technical development for the marketing platform and rebuilt it around an event-driven architecture, so the funnel's conversion API absorbs millions of events per hour and stays stable under load.

Plugin Creator — FilamentPHP

Oct 2020 — Present · Cairo, Egypt (Remote)

Creating and maintaining Filament admin-panel plugins for the Laravel/PHP ecosystem.

CEO & Founder — 3x1

Oct 2020 — Present · Cairo, Egypt

Founded and run 3x1, a software studio delivering full-stack products for startups and businesses.

Team Leader — Queen Tech Solutions

Jan 2020 — Jan 2021 · Cairo, Egypt

Managed development team for enterprise software solutions. Implemented agile methodologies and CI/CD pipelines.

CTO — INVASSO

Jan 2019 — Jan 2020 · Cairo, Egypt

Chief Technology Officer responsible for overall technical strategy and product development.

CTO — Lun Startup Studio

Jan 2018 — Jan 2019 · Cairo, Egypt

Built and launched multiple startup products from scratch. Led technical architecture and development teams.

Brand Manager — UNLMall

Jan 2016 — Jan 2018 · Cairo, Egypt

Managed brand identity and marketing strategies for e-commerce platform.

Senior Art Director — Alahd Printing

Jan 2014 — Jan 2016 · Cairo, Egypt

Led creative direction for print and digital media. Managed design team and client relationships.

Education

Swift4 iOS Diploma — RCC

Feb 2020 — Feb 2020

Java Android Diploma — RCC

Dec 2019 — Dec 2019

Web Development Diploma — RCC

Nov 2019 — Nov 2019

3DsMax Diploma — RCC

Apr 2019 — Apr 2019

Graphics Design Diploma — RCC

Mar 2019 — Mar 2019

CS50 Computer Science — HarvardX

Feb 2018 — Feb 2018

Python Django — Codecademy

Aug 2017 — Aug 2017

Ruby on Rails — Codecademy

May 2017 — May 2017

MIS — Future Academy

May 2017 — May 2017

Skills

Languages: PHP, JavaScript, TypeScript, Python, Dart, Swift, Go

Frameworks: Laravel, Vue.js, React, Inertia.js, FilamentPHP, Nuxt.js, Next.js

Frontend: Tailwind CSS, Alpine.js, Vite, Sass, PostCSS

Mobile: Flutter, React Native, Swift iOS, Kotlin

Databases: MySQL, PostgreSQL, Redis, MongoDB, Elasticsearch, SQLite

DevOps: Docker, AWS, Google Cloud, Laravel Forge, GitHub Actions, Nginx, Kubernetes

Version Control: Git, GitHub, GitLab, Bitbucket

Terminal: iTerm2, Oh My Zsh

Design: Figma, Adobe Photoshop, Adobe Illustrator, After Effects, 3ds Max

AI: OpenAI API, Claude Code, Ollama
